
IS A HOT DOG A SANDWICH?

Tiannah Griffith, Katie Lai, Dev Patel, Patrick Yin

MOTIVATION

We want to find an answer to this controversial debate. We want to determine students' position on this controversial debate on the classification of a hot dog as a sandwich.

HYPOTHESIS

Less than $\frac{1}{2}$ of UVA full-time undergraduate students believe a hot dog is a sandwich

DATA

A google form survey sent to UVA students. Results are shown on a google sheet file

ANALYSIS PLAN

Created exploratory charts to demonstrate the total number of yes and no responses

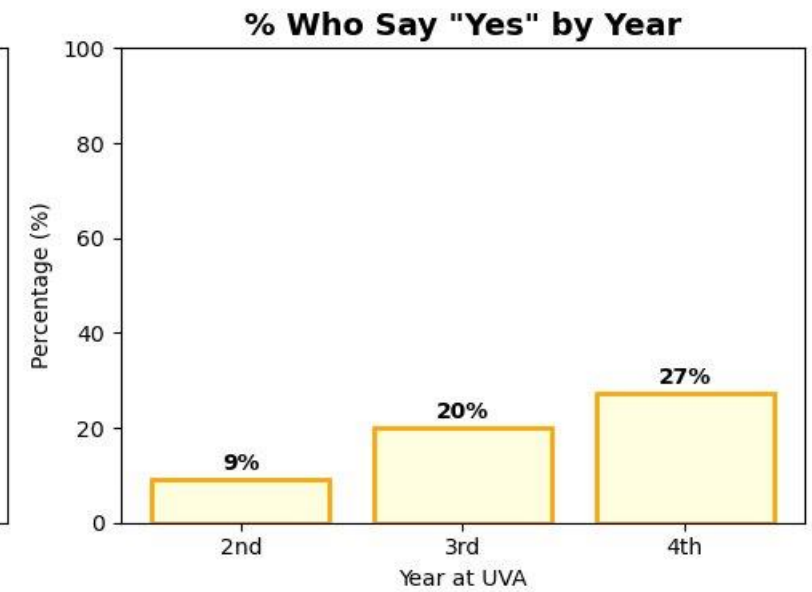

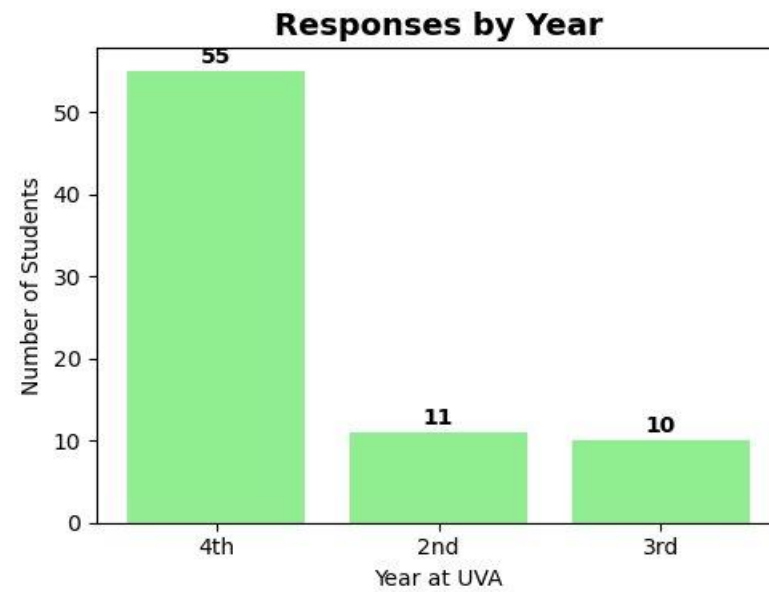

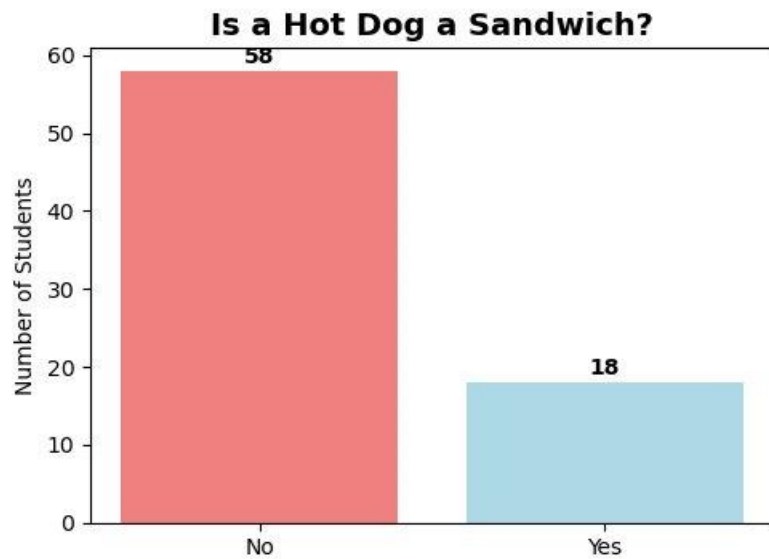

Look further into the number of yes or no responses based on the students' class year

Look at the percentage of yes responses by class year

RESULTS/FINDINGS

DISTRIBUTION

Year Representation:

1st: 0 students (0.0%)
2nd: 11 students (14.5%)
3rd: 10 students (13.2%)
4th: 55 students (72.4%)

Opinion by Year:

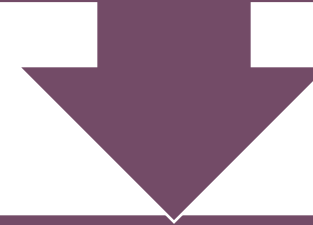

2nd: 9.1% say Yes
3rd: 20.0% say Yes
4th: 27.3% say Yes

Out of 76 UVA students:

18 say YES (23.7%) - hot dog IS a sandwich
58 say NO (76.3%) - hot dog IS NOT a sandwich

EVALUATION OF SUCCESS

Based on just the results, most undergraduate students believe that a hotdog is not a sandwich

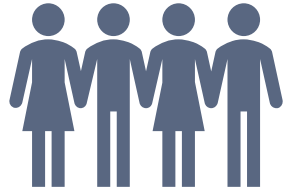

However:

Our data set lacked
an even distribution
of UVA undergrads

Contained 0 first-
years

Cannot conclude
for the whole
population

NEXT STEPS

**Gather data from a wider sample
of full time UVA students**

Want data more representative of the true
population

**Perform statistical tests to test
correlation**
